Summary
Final-year student with hands-on Python and machine learning project experience.

Skills
Python, SQL, scikit-learn, Pandas, FastAPI, Git, Docker

Education
B.Tech Computer Science, Example Institute of Technology, CGPA 8.4

Projects
Resume classifier: built a text classification pipeline in Python using scikit-learn and TF-IDF features
Built REST APIs with FastAPI for serving model predictions and wrote unit tests with pytest
Sentiment analysis of product reviews using NLP techniques and sentence embeddings

Certifications
Machine Learning Specialization (online course)
